

BLUEY

DOOR HANGER JUMPING JACK

You will need:

- Cereal box
- Five paper fasteners (butterfly clips)
- Wool/cotton string
- Pencil/marker
- Scissors
- Quick drying glue

1. Glue the template into the cereal box board and carefully cut out all the character pieces.
2. Ask a grown-up to help you punch holes in the places indicated. You can also use a mini hole punch to make the holes.

**BOING!
BOING!**

3. Pass the clips through the body and arms holes to join them. Then tie the top of the string into the arm holes and pull tight, making sure the arms stay in place. Do the same with the legs.

Now for the finishing touches...

4. Tie a long piece of string that runs between the arms and the legs together and get ready to jump with Bluey!

Use the same technique to create Bluey's little sister, Bingo!

Bluey

JUMPING JACK

Let's jump with Bluey!

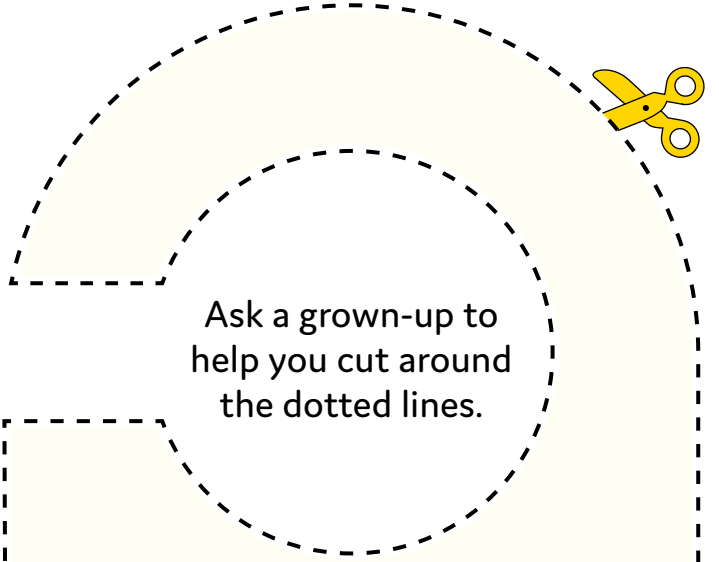

Ask a grown-up to help you cut around the dotted lines.

JUMPING JACK

Let's jump with Bingo!
