

MAKE YOUR DAD A PIZZA CAKE*

* NO
PIZZA OVEN
NECESSARY

WHAT YOU'LL need:

- 1 x packet mix for a plain cake (or ingredients to make a cake yourself!)
- Ingredients to make butter icing with some red & blue food dye
- (Or if you're short on time, you could use Strawberry Jam)

- Either a pizza tray or the largest round cake tin that you have

FOR TOPPINGS!

We used:

- 3 x fruit straps
- 2 each of red, green & yellow snakes (or other similar lollies)
- White chocolate
- 1/2 a cup of shredded coconut
- A handful of blueberries

METHOD:

1. Line your pizza tray or cake tin with a circle of baking paper.
2. Make the cake mixture as per packet instructions or your recipe and pour into your pizza tray/cake tin and bake.

WHEN READY SET ASIDE TO COOL

DON'T NIBBLE! WE ARE NOT DONE YET.

3. Make your butter icing. Slowly add a few drops of red food dye until you've got a bright red colour, then add a couple of drops of blue to give it a good tomato base colour.

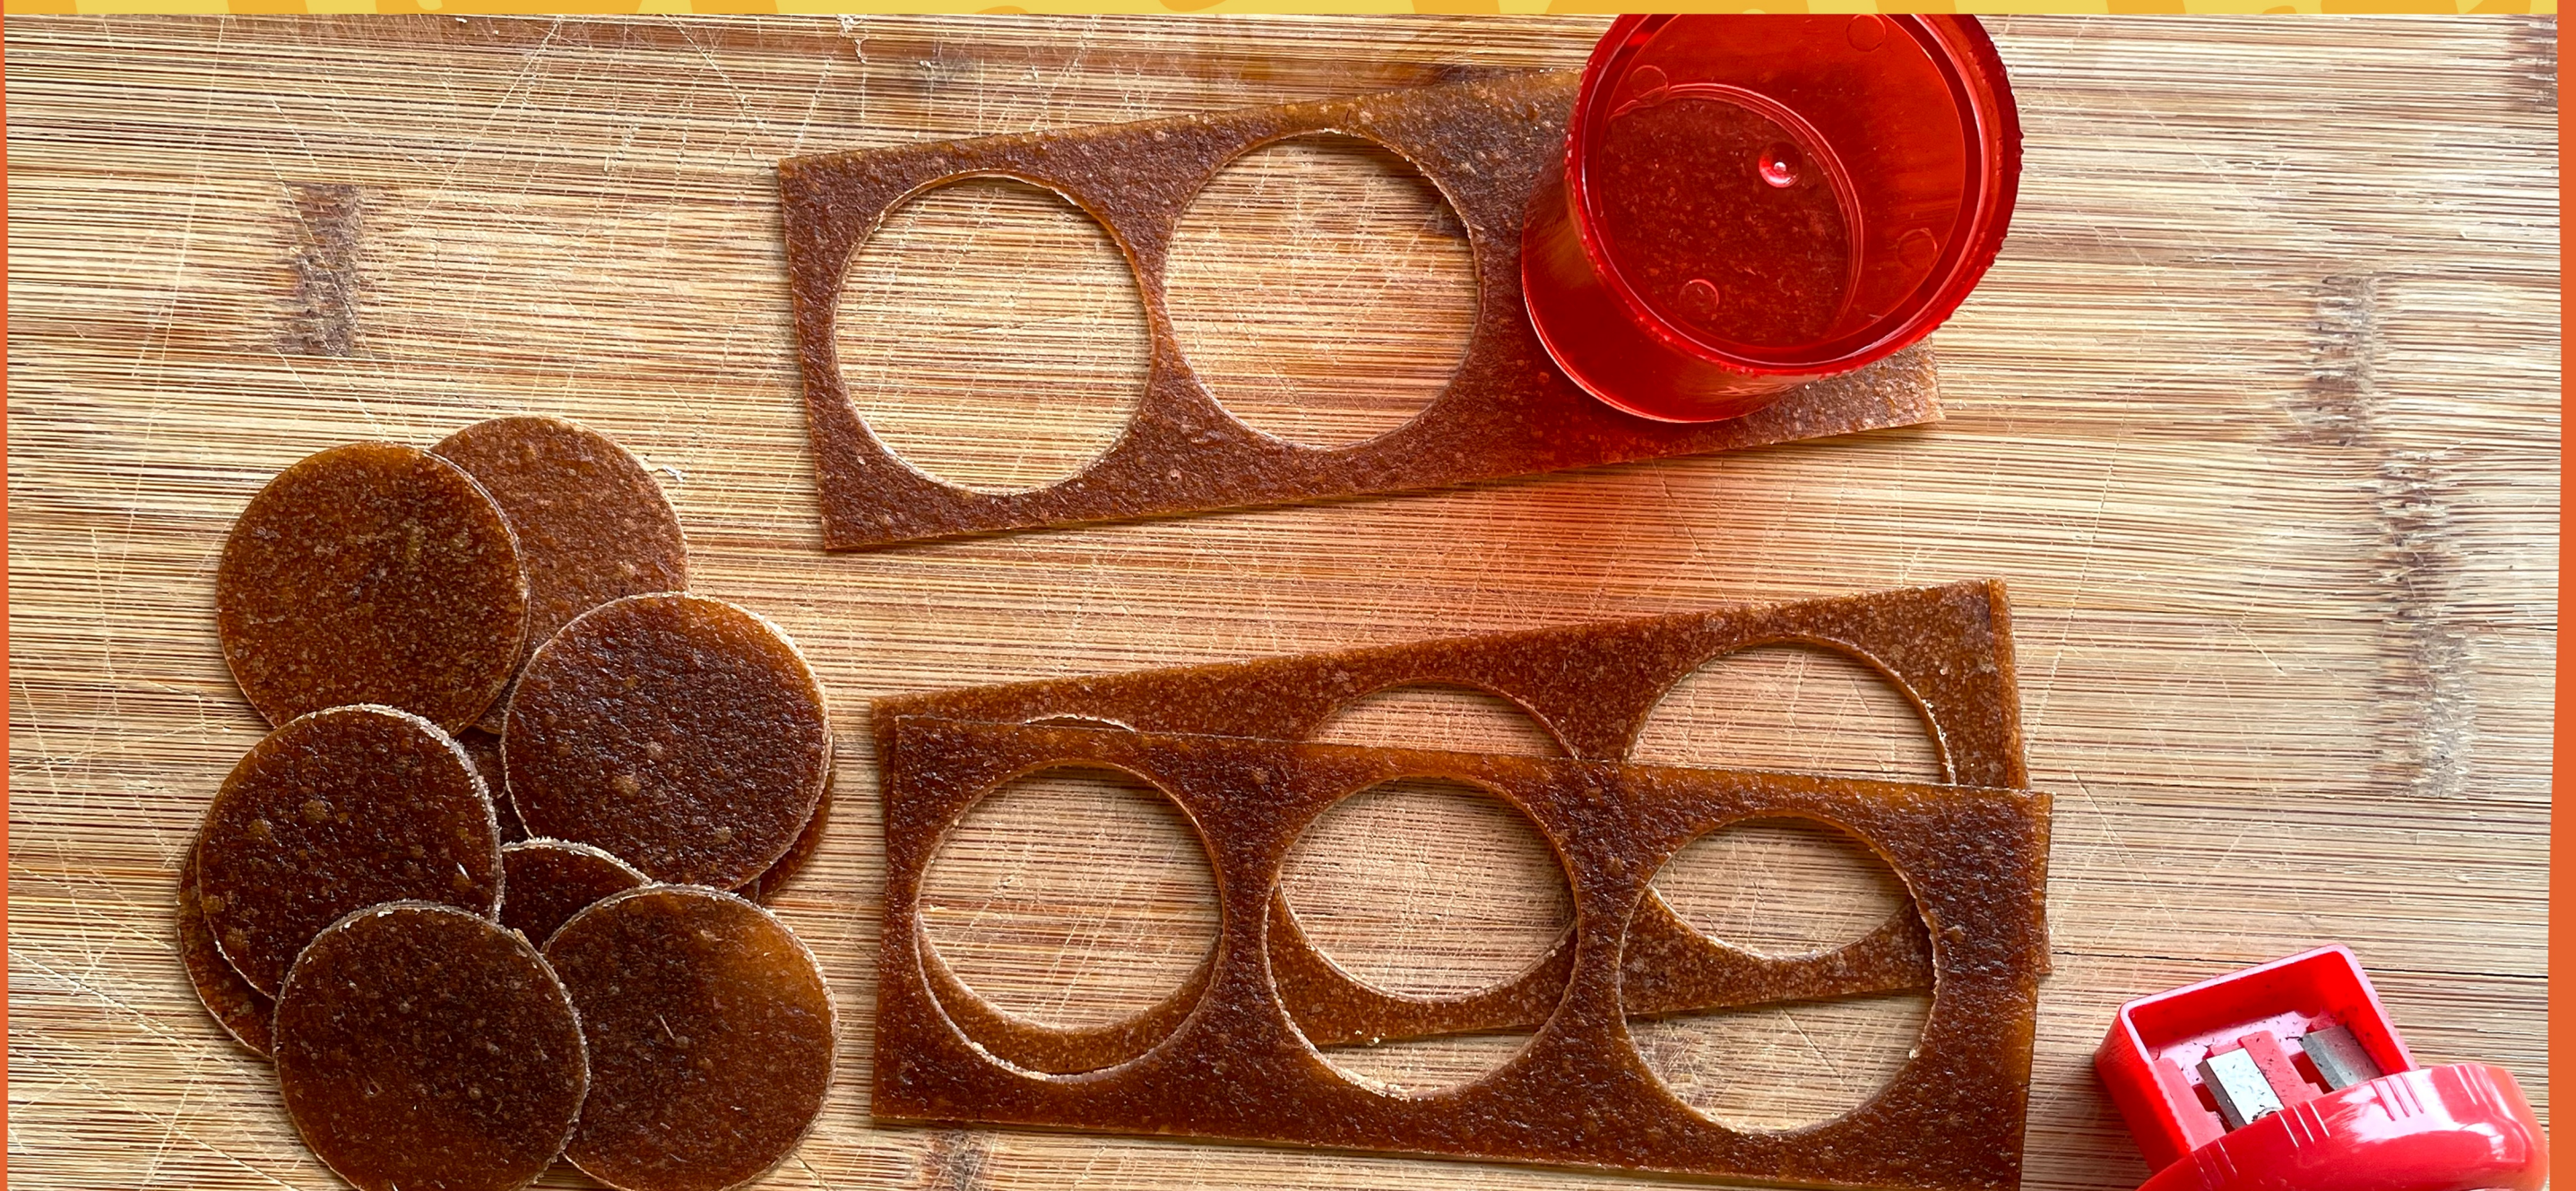

4. Spread it over the top of your cake, not going up to the edges as this is the crust of your pizza (or do the same with the jam if you're using).

5. Grate about 4 - 8 squares of white chocolate. In a bowl, mix with half a cup of shredded coconut and then sprinkle over the tomato base until it looks cheesy enough.

6. Cut your fruit straps into circles (we used a pencil sharpener as a cutter, a perfect size for pepperoni slices).

7. Then place your fruit strap pepperoni slices on top of your pizza. Chop up your snakes and lollies and add on top. Finally add your blueberries.

ARE YOU READY
FOR THE BEST
PIZZA CAKE YOU'VE
EVER TASTED

8. Now go and give it to the big blue guy
in your life!
